Take the Money. [San Francisco Chronicle, August 27th.] Controller Dunn has written a smart let

ter to Attorney-General Marshall, which was published in yesterday's Chronicle. It is ingenious, but that is all that can be said in its favor. It is not frank, nor is it consistent with common sense. The gist of it is this: The Political Code possible. The vicious fighting and the number of casualties that characterized the battle excited much community to the State, and * * upon filing the Treasurer's receipt for the amount, to give amount than the railroads really owed, nor could he give the latter "a discharge" return for a payment on account. But the law does not require the Controller to give a person indebted to the State a receipt in CHARLOTTE (N. C.), August 27th.—A full, nor does it anywhere inhibit him amp-meeting held by the Northern Meth-from receiving money on account and odists (colored) at Piney Hill, Rutherford granting a discharge for such proportion of the debt as was paid. Such a provision

If Mr. Dunn were acting as th agent of such an individual and he refused accept the tender, under some nonsensi al interpretation of the law, he would be dismissed from his agency as unfit to have harge of important money matters. But e knows that in such a case he would not efuse; he only refuses now because he be leves that the distress which the want o the money creates in the counties to which t belongs is calculated to help the Demo

He says that if he were to accept a pay ent on account from the railway he would ave to do so for other corporations and for private individuals, and that this would "destroy our entire revenue system." Nothing of the kind. No one pays taxes ondition in Brooklyn stores. The former | because he likes to; every one pays because was in the Erie Basin stores and the latter he can't help himself, and because the law has provided severe penalties for delinquency. If a man who owes \$100 for taxes aly pays \$50 on account, the penalty and interest run against him for what portion uickly—as the Controller himself showsso heavy and the necessities of the debtor so sharp that he can afford to pay roundly for time that a tax-payer will inconveni ence the State Government by making pay ments on account. Besides, he has had abundant evidence that the State canno treat a corporation as it does an individual try the effect of a lucid interval of commo treasury. If he keeps a careful watch over

A DASTARDLY ACT. Attempt to Wreck a Train of Cars-Ar-

rest of a Suspicious Character. For some years past the railroad men have been greatly annoyed by the operations of scoundrels, whose special aim in life has seemed to be the wrecking of trains. Time and again accidents have occurred good men have had their lives sacrificed office on Wednesday. for no other purpose than to satisfy the cravings of some diabolical wretch for reenge against the railroad company. The terrible affair of last week, near the summit of the Sierra Nevada, by which a passenger train was derailed, and one faithful were seriously wounded during a shooting and brave fireman of a locomotive lost his affray a short time since, are both convalife, and two of his brother employes were lescent nearly scalded to death, was but one in a ong list of disasters of that character. Street Commissioner H. B. Nielsen yes-terday celebrated his 57th birthday. His many friends, as is their annual custom assembled at his residence last evening to do honor to the occasion. By 8 o'clock hi parlor and sitting-room were crowded with riends, many of whom brought handsome presents. Ex-Trustee Gutenberger presented is life-size portrait, beautifully framed, to the host. The presentation speech was made by W. A. Anderson, who likened the donor and the host to Damon and Pythias. A bystander suggested that they were more like David and Jonathan. Mr. Nielsen r plied in very complimentary terms. The evening's entertainment consisted of short peeches, pleasant conversation, vocal and strumental music, after which all partock Toy, the Celestial who was stabbed on the 12th instant by Ah Sing, receiving injuries ent the following were noticed: A. Vanderleaper, the individual who some weeks ago created a disturbance at the residence of Hon. Wm. Johnston at Richland, and for which he was sentenced to serve a term in the chain-gang, escaped from the latter vesterday at Agricultural Park. The jailers, for some time past, have been conrinced that he is insane. His conduct in ail, and his conversation, was that of a unatic. He had but five days more to serve, and leaves behind him an excellent mit of clothes. He asked for a knife to kill himself with on Thursday. He yesterday jumped over the fence at the Park, ran toward the American river, and it is thought jumped in and drowned himself.

The valley is divided into about thirty farms, two or more containing a section each, while the rest are of various areas Grains of all kinds thrive well, wheat barley and oats yielding enormous crops Alfalfa and timothy are much sown for hay, two and often three crops being harvested in one year. The valley itself can boast of no special mineral wealth, but in the hills near by the mines are extensively worked and a large profit realized. The altitude is about 4,000 feet.

The seasons are two, the wet and the dry In summer thunder-showers are frequent The frosts continue until late in July. In winter snow falls from two to four feet rarely deeper. Snow shoes are a much-used mode of progressing during this sea-son. From July until October the weather is moderate and agreeable, and draws many from the heated valleys below to seek health and recreation.

The plausible theory has been advanced

The plausible theory has been advanced that this valley is but a depression upon one of the highest ranges of the Sierra Nevada. At an early period it was supposed to have been a lake and from repeated alluvial washings and deposits it assumed its present configuration.

The railroad question is agitated here to some extent, many holding the idea that its advent in Quincy would but signal the downfall of the town. Such arguments

RESULT OF A FIST FIGHT.—The Supreme ourt has affirmed the judgment and order the case of John Munn, who was tried in Stanislaus county for the murder of Alfred Case and was convicted of manlaughter and sentenced to ten years' im-orisonment. On a former trial he was wicted of murder in the first degree, and oon his appeal the judgment was reversed the Supreme Court, which Court held that no higher offense than manslaughter was shown. The facts of the case are briefly these: On the morning of August 13, 1883, the deceased was found dead, lying in a yard where he sometimes slept when in the town of Turlock, Stanislaus of the brain, resulting from a clot of blood formed inside the skull, the blood having flowed from the right branch of the middle meningeal artery, ruptured by a small spicula of bone depressed from a fracture of the skull in the right temporal region just above and a little in front of the right lemporal region flowed and a little in front of the right lemporal region just above and a little in front of the right lemporal region flowed and a little in front of the right lemporal region just above and a little in front of the right lemporal region flowed flowers. brity of the climate give it many superior advantages. The location of the county-seat also adds to its importance. In shape it is nearly a perfect triangle, with the aperpointing towards the south, the base representing the north and the remaining sides inclosing the east and west arms respectively. It was first settled in 1851, and for many years its progress was comined to the development of its mining interests, and from the time of the discovery of gold to the year 1853 its mining was indefinite. Late in the spring of 1853 some parties experimented upon a small portion of ground with a view to its adaptability to farming purposes. The outlook soon at tracted a number of permanent settlers, and from that time to the present their attention was directed in the main to agriculture and stock-raising. Many years ago a wealthy capitalist from San Francisco invested \$1,000,000 in the pursuit of various schemes originated for testing the mineral wealth of this portion of the county. The result was a failure, only proving that science, however well authenticated its bearings may be, is of no value in theorizing about the location of gold.

On the southern side of the west arm of the valley is situated the town of Quincy, the county-seat of Planns county. The town was founded about 1853, and for tenying may be, is of no value in strain of the valley is situated the town of Quincy, the county as the only means of access is by wagon road.

The support of the town is not due to local industries, as beyond the profits accruing from official brisness its stay is dependent upon its mineral resources and the produce of the surrounding locality. It contains about twenty business houses, each having a respectable share of patronage; the remainder, numbering about one hundred dweldings, constitute the general make up of the largest town in the county. The ducational advantages are fair. The public school building, of brick, is a creditable structure. The school bear and all of the mines. Since that time it has continued to im walue here, 3@5c.

For the benefit of suffering humanity, I deem it only my duly to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with Eczema from infancy. We tried every known remedy, but to no avail. She was also afflicted with a periodical nervous headache, sometimes followed by an intenite the fever, so that her life became a burden to her. Finally I determined to try Swift's Specific. She commenced seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After flammation became unbearable. She, however persevered in the use of the medicine. Aft taking the second bottle the inflammation is gan to subside. After the third bottle the gan to subside. After the third bottle the in-flammation disappeared, and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white pow-der resembling pure salt. She is now taking the sixth bottle; every appearance of the dis-ease is gone, and her flesh is soft and white as a child's. Her headaches have disappeared and she enjoys the only good health she has known in 40 years. No wonder she deems every bottle of S. S. S. is worth a thousand times its weight in gold. THE "HOME SEEKER."

The Immigration Association of Northern California is now preparing to issue the August number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each copy will be put in the hands of e incoming passenger. In addition to this, several thousand copies will be distributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories.
